If you are not lucky enough to live in a household where someone has some salon skills, your locks might be in desperate need of a little attention at the moment.

Loretta Wollner, a celebrity hair stylist with 25 years of experience in the beauty industry, has you covered this summer. Wollner will be making house calls in the Hamptons, closely following all **protocol** and guidelines outlined by the CDC and taking extra care to sanitize between clients, of course.

"I have been doing a lot of color because people either have 4 months of regrowth or they have tried coloring their own hair, which has me doing more creative corrective color," Wollner noted. "During this time I found a great vegan, organic color line. It's great for those who are looking for a healthier color alternative."

Services available include cuts, color, styling, keratin smoothing treatments and hair extensions.

"I've been doing a lot of haircuts lately, but people don't seem to want blowouts," Wollner shared. "I think they may have learned to style themselves while in quarantine and the ones that have a lot of frizz, or unmanageable curl, have been getting organic smoothing treatments that last about 5 months."

The hair guru has also launched at home root touch up kits. Available for \$60, the kits can be shipped anywhere within the U.S.A. and purchase includes a personalized Zoom consultation to cover any at home coloring concerns and a custom created formula. First timers or those who are a bit rusty can also request a walk through tutorial for an additional fee once the kit is received.

"I think that men are more excited for haircuts after quarantine, they have been saying they feel so much cleaner afterwards," Wollner added.

Wollner, who has made an appearance on *The Real Housewives of New York City*, has worked with Tinsley Mortimer, Lisa Vanderpump, D'Andra Simmons and other notable names.
